Features at a glance

Lifelong quality. We offer a 100 year guarantee against fading on our canvas prints, because we use only the best polycotton canvas, FSC-approved wood frames and solvent-based inks. Which other companies are confident enough to offer such a guarantee?

Custom sizes at no extra cost. Our production technique allows us to create canvas prints of any size you wish up to 1.5m in either height or width. We use 44mm deep kiln-dried redwood for the frames which is cut and assembled to your exact size of print.

No re-tensioning needed. Because we stretch your canvas print to optimum tension before we despatch it, there is no need to re-tension it after three or six months.

Please remember that our prices are **fully inclusive** of professional advice to help you prepare your file for printing, pre-press checks, PDF proofs and printing. The only charges to add are for delivery and [VAT, where applicable](#). **We never add 'hidden extras' and we stand by that principle 100%.**
