Leaflets

Features at a glance

Huge range of sizes and weights. We can produce leaflets in standard 'A' sizes (A6, A5, A4, A3) as well as custom sizes. We make no charge for cutting leaflets to your custom size.

Heavier weight stocks for the lower prices. Most printers use 130gsm (grams per square metre) and 170gsm papers; we use 150gsm and 200gsm paper for less cost thanks to our bulk buying. We also offer

lightweight 115gsm and 280gsm card. For heavier weight requirements, please see [Flyers](#) and [Postcards](#).

Unbeatable quality of print. Photographs and text are reproduced in pin-sharp detail thanks to our use of stochastic dot screening, which renders dots up to 30 times more clearly than conventional printing.

Big savings on larger quantities. Because we specialise in large volumes of leaflets, you can save significant amounts on larger volumes of printed leaflets.

Folding, creasing, perforating and drilling. Your leaflets can be folded, creased so that you can fold them yourself, perforated to allow a tear-off slip, or drilled (punched) in as many positions as needed. Just let us know what you need and we'll find a solution.

Pricing illustrations

Please remember that our prices are **fully inclusive** of professional advice to help you prepare your file for printing, pre-press checks, PDF proofs and printing. The only charges to add are for delivery and [VAT, where applicable](#). **We never add 'hidden extras' and we stand by that principle 100%.**
